

Stainless steel level switches RFS-11A,12 & 12P

- All Stainless Steel
- High temp. 120°C
- New rugged hinge
- Optional DIN Plug
- 1/8" or 1/2" thread
- Internal or external assembly
- Compact design

• This is the lowest price, all stainless steel, side entry level switch available in the U.K! •

REED SWITCH PROTECTION

When a reed-switch is used on an inductive load e.g. a relay - the current surge which flows back to the reed-switch (back EMF) can cause the reed switch to fail.

Fitting a suppressor either "in-line" or "across" the relay coil can help protect the reed-switch.

SUPPRESSORS

PVL 047-1 12 & 24Vdc = £1.60 each
 PVL 047-2 110Vac = £1.60 each
 PVL 047-3 240Vac = £2.20 each

ORDER CODE		
MODEL	FITTING	PRICE
RFS-11A-2	Internal	£22.50
RFS-12-2	External	£25.00
RFS-12P-2	External	£30.00

O.E.M. QUANTITY DISCOUNTS

For quantity discount breaks - please call us at the number below. We are able to supply these and other switches in our range at attractive prices, either in a single shipment or against your scheduled order.

Stainless steel level switches RFS-11A,12 & 12P

FITTING

The RFS-11A-2 is assembled from inside the tank or vessel after first drilling a 3/8" (10mm) clearance hole in the tank wall.

The RFS-12-2 & RFS-12P-2 have a 1/2"NPT tapered thread, which is almost indistinguishable from 1/2"BSPT.

This switch can be fitted from outside the tank by screwing it into a 10mm (max) deep, threaded boss.

Both switches can be rotated through 180° to give either Normally Open or Normally Closed contacts.

PROTECTION

For inductive loads, such as relays etc, we strongly recommend that a PVL suppressor be used to protect the reed switch from back EMF. See front of this DataFax.

CUSTOM DESIGNS

Please contact our sales department for further information on our '10 day' delivery, multi-level switches.

DIMENSIONS - RFS-11A-2 (Internal fitting)

DIMENSIONS - RFS-12-2 (External fitting with flying leads)

DIMENSIONS - RFS-12P-2 (External fitting with DIN Plug)

SPECIFICATION - RFS-11-2, RFS-12-2 & RFS-12P-2

Contact rating	50 VA	Temp range	-40°C to +120°C
Max switching voltage	300Vac	Max pressure	5 bar
Max switching current	0.5A AC/DC	Float SG	0.70 ± 0.04
Dielectric strength	600 V DC	Material (all s/steel)	Float = 316; Body = 304 grade
Contact resistance	200 mOhms	Thread (Internal type)	1/8" BSP
Insulation resistance	10 mOhms	Thread (External type)	1/2" BSPT
